

Environmental Management System

Acquisition of ISO 14001 Certification

All group companies have acquired certification and are properly implementing environmental management systems.

In September 2003, NEC Electronics received ISO 14001 certification separately from NEC Corporation. Currently, NEC Fabserve and NEC Micro Systems, associated organizations of NEC Electronics, implement environmental management systems that were integrated with the system at NEC Electronics.

All manufacturing subsidiaries in and outside Japan became ISO 14001 certified by March 2004. All domestic and overseas design and sales subsidiaries acquired ISO 14001 certification by June 2005, except companies with 30 employees or less.

Certificates of ISO 14001 Certification

Acquisition of ISO 14001 Certification

	Registration No.	Certification body	Date certified
NEC Electronics Corporation*1	JQA-EM3385	JQA	September 19, 2003
Domestic Manufacturing Companies			
NEC Electronics Corporation*2	JQA-EM3490	JQA	November 1, 2003
Overseas Manufacturing Companies			
Shougang NEC Electronics Co., Ltd.*3	A16067	UL	March 19, 2007
