NEC Electronics Corporation

1. Overview of My Page

My Page is a web page provided for users to register their microcontroller development tool products. Tools downloaded for free (such as device files and parameter files) and tools downloaded for free, as well as purchased products, can be registered on this page.

Customers who purchased development tools from NEC Electronics Corp. can utilize this service free of charge. If you purchased from NEC Electronics overseas representative, please contact your NEC Electronics overseas representative.

In the "Product" field, the availability of the latest version can be checked, and downloading is also available by clicking the product name link.

NEC Electronics will send via e-mail an upgrade notification or new product information to users who registered the target products on the My Page "Products" list.

The screenshot shows the NEC Electronics website interface. At the top, there is a green header with the NEC logo and a navigation menu with links for HOME, APPLICATIONS, PRODUCTS (highlighted), TECHNOLOGY, SUPPORT, BUY ONLINE, NEWS & EVENTS, and ABOUT US. Below the navigation menu, there is a search bar and a breadcrumb trail: MICROCOMPUTER > Development Tools Download. The main content area contains a list of links and text:

- Customers who purchased development tools from NEC Electronics Corp. can utilize this service **free of charge**.
- If you purchased from NEC Electronics overseas representative or you would like to download software required ID and password, please contact your NEC Electronics overseas representative.
- > [Version-up Service](#)
- > Download for Debugger, Device Files and Parameter File
- > Customer Registration
Please register your profile and product for support.
- > [Newly Registration](#)
- > [Add/Delete product registration, Change your profile, Password reminder](#)

The last two links are enclosed in a red rectangular box.

2. My Page Functions

2.1 Configuration of My Page

My Page consists of the various items shown below.

FirstName LastName 's My Page Log out

Get the latest information.

Change my profile.

» **Announcements**

Service for your private page for microcontroller development tool product registration has begun. Registration for not only device files and parameter files, but also for free tools is available. You can check the download status of the latest version in Products. You can also download from the product name link.

Product name	Announcements

Rearrange product order.

The button functions are as follows.

Updates the displayed lists.

Displays the screen for changing the use's profile.

Displays the screen for changing the list in the Products field.

2.2 Configuration of Products field

The configuration of the Products field is as shown below. Whether to hide or show this field can be selected in the screen opened by clicking the  button on My Page.

✧ Products						
Type	Download date	Target microcontroller series	Tool type	Product name	Version	Language
Free	02-Oct-2007	V850,78K0R,78K0,78K0S	MINICUBE2_Software	QE-Programmer	V2.21	English
Free	Not yet	78K0R	DeviceFile	DF781188	V3.00	Japanese/English
Free	Not yet	78K0R	ParameterFile_PG-FP5	PR5-78F1188	V1.00	Japanese/English
Free	Not yet	78K0R	ParameterFile_PG-FP4_PG-FPLx_MINICUBE2	PRM78F1188	V1.00	Japanese/English

(1) Type

“Free” is displayed for products registered through the Version-up Service.

(2) Download date

The date on which the product has been downloaded is displayed. If the product has not been downloaded, “Not yet” is displayed.

(3) Target microcontroller series

The target microcontroller series is displayed.

For products that support more than one series, select the relevant series in the screen displayed, by clicking the  button.

(4) Tool type

The tool type is displayed.

(5) Product name

The product name is displayed. Clicking the product name displays detailed information. The documents supplied with the product can be referenced and tools can be downloaded through the detailed information display.

(6) Version

The latest version of each product is displayed.

(7) Language

The language supported by the product is displayed.

3. Usage

3.1 Registering free products (except for free tools)

Click the icon  displayed next to the product name in the “Development Tool List of Device” on the Version-up Service page and enter the ID (e-mail address) and password you have registered during the online user registration procedures.

Example: When registering device file DF781188

Development Tool List of Device

78K0R/KJ3 UPD78F1188 Development Tools List [Back](#)

Click the registration icon.

Product Type	Product Name Version (File Size)	Release Date	Material
DeviceFile	DF781188 V3.00 (805,778byte)	06-Nov-2006	
		PM+ V6.20 or later, RA78K0R V1.00 or later, CC78K0R V1.00 or later, SM781000 V2.20 or later, SM781188-B V2.20 or later, ID78K0R-QB V3.20 or later are supported. Note SM781188-B V2.20 does not support the UPD78F1167, UPD78F1168, 78K0R/KH3, and 78K0R/KJ3.	
		06-Nov-2006	
ParameterFile_PG-FP4_PG-FPLx_MINICUBE2	PRM78F1188 V1.00 (624,746byte)	06-Nov-2006	
ParameterFile_PG-FP5	PR5-78F1188 V1.00 (263,541byte)	17-Jul-2007

[New users register here](#)

Enter the ID and password.

3.2 Registering free tools

The free tools are automatically registered when they are downloaded.

3.3 Downloading registered products

Select the product name from the Products field to display the “Product detail” field. Tools and materials supplied with the product can be downloaded.

Product detail

Type	Free
Download date	Not yet
Target microcontroller series	78K0R
Tool type	DeviceFile
Product name	DF781188
Version	V3.00
File size	805,778byte
Language	Japanese/English
Release date	06-Nov-2006
Material	
Complement	PM+ V6.20 or later, RA78K0R V1.00 or later, CC78K0R V1.00 or later, SM781000 V2.20 or later, SM781188-B V2.20 or later, ID78K0R-QB V3.20 or later are supported. Note SM781188-B V2.20 does not support the UPD78F1167, UPD78F1168, 78K0R/KH3, and 78K0R/KJ3.
Relative	-

Click

3.4 Downloading registered free tools

Selects the name of the desired product in the “Free tools” field. Input the purpose of use; the free tools will then be downloadable.

3.5 Selecting whether to show or hide the lists and delivery mail

Whether to show or hide can be selected for each line in the “Products” and “Free tools” fields. Selection can be made on the screen displayed by clicking the  button.

button.

The customer is able to select the E-mail delivery of "Version-up Notification" of each name of "Product name".

Products
